Are you sharing this with NJDEP? We are planning to meet with them next week to discuss their CSTAG comments.

Subject: CSTAG Stakeholder Input & Response

Diane and Michael:

Attached are the CPG's responses to the NJDEP's February 13, 2018 comments provided as part of the CSTAG Stakeholder process.

As a follow-up to earlier requests, has EPA determined whether it can provide the CPG following:

- NOAA/FWS comments to CSTAG, and
- EPA Region 2's "11 Sediment Principles" Memorandum to CSTAG

Also the CPG would like to have a better understanding of the NJDEP's statement in Comment 3: *"EPA has identified a similar concern and possible path forward for development of site-specific remedial goals for an interim remedy"*.

Please contact me with any comments or questions and if EPA requires any additional information from the CPG.

Thank you.
